ARFM NOMINATED FOR EARTHSHOT PRIZE 2023

Victoria, Malaysia –. Nominated by an Official Nominator of EarthShot Prize

The Alliance for Responsible Forest Management (ARFM) has been nominated for the EarthShot Prize 2023 and recognised for ambitious and innovative coordination of best practice in tropical forest management in Africa, Asia-Pacific and Latin America.

The ARFM nomination will undergo a detailed assessment across multiple stages to find the top solutions that meet selection priorities in five key categories: Protect and Restore Nature, Clean our Air, Revive our Oceans, Build a Waste-Free World, Fix our Climate. The EarthShot Prize team will then select 15 solutions– three for each category, as Finalists. Five winners will be selected by The Earthshot Prize Council and will receive a one-of-a-kind award and a £1m grant to scale the impact of their winning solution. Both the Winners and Finalists will also join a year-long Fellowship Programme to amplify their work, as well as tailored support from The Earthshot Prize and their network of NGOs, businesses, governments, funders and mentors.

The ARFM Secretariat would like to thank our Executive Board and Institutional Partners, The Tropical Agricultural Research and Higher Education Center (CATIE), and The Council for Scientific and Industrial Research (CSIR), Forestry Research Institute of Ghana (CSIR-FORIG), for their hard work, dedication and pursuit to improve tropical forest management in Africa, Latin America and the Caribbean, and Asia-Pacific.

Contact the ARFM Secretariat for more information.

About:

The ARFM is aimed to accelerate the implementation of responsible and sustainable forestry across the tropical world and create a coordinated global network of training centres to promote and train practitioners on best practices. As an independent organisation and not a standard setting body, the ARFM will shall direct over 30 years of peer-reviewed research and applied knowledge to create regionally appropriate best practice material, complemented by training centres for practitioners, Certification Bodies, auditors, government agencies, private practitioners and communities. Training will consist of classroom-based (virtual and/or in-person) and on-site education in regional training centres in Africa, Latin America and the Caribbean, and Asia-Pacific.
